A VISION FOR THE FUTURE

The vision of Mohamed Alabbar, founder and Chairman of Eagle Hills, is reflected in a portfolio of distinctive communities designed to elevate everyday urban living.

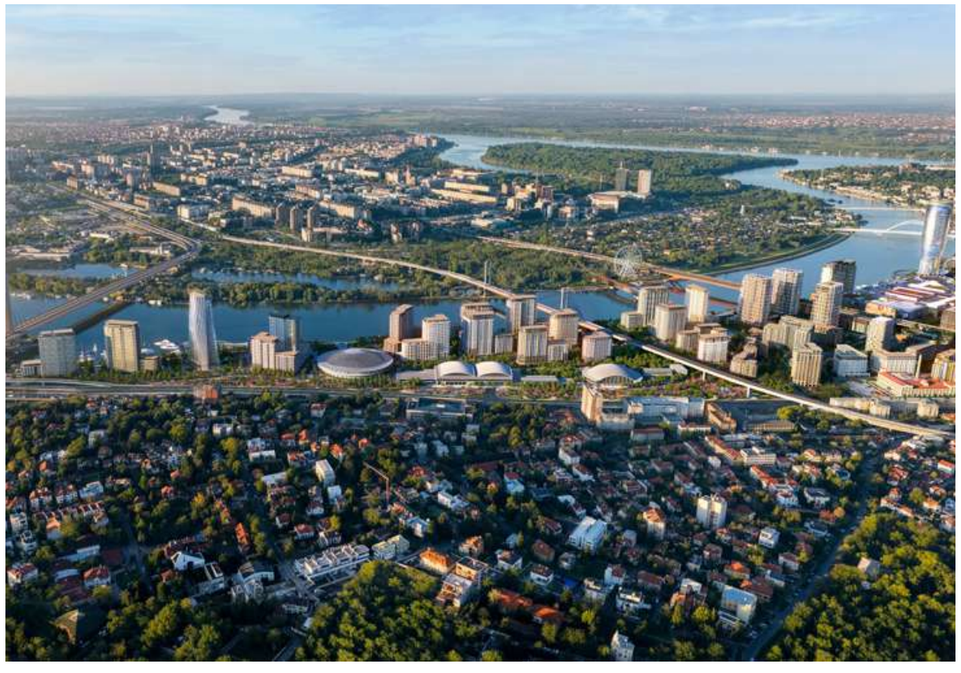

Spanning from Croatia to Morocco, these developments bring together exceptional architecture, thoughtful design and a strong sense of place, with nature and culture increasingly shaping the experience of contemporary life.

CITY OF ENERGY AND CHARACTER

At the confluence of the Sava and Danube rivers, Belgrade, the capital of Serbia, occupies a distinctive position at the heart of the region. Rich in heritage and culture, the city is known for its vibrant arts scene, dynamic nightlife and cosmopolitan character.

Today, Belgrade is a regional hub for business, finance and urban renewal, attracting a growing international audience. Its welcoming atmosphere, thriving cultural life, restaurants and cafés that come alive throughout the day and night, diverse culinary offering and extensive shopping opportunities all contribute to its enduring appeal.

EUROPE’S NEW BENCHMARK FOR URBAN LIVING

Belgrade Waterfront is transforming the centre of the Serbian capital into a distinctive riverside destination where living, business, culture and leisure come together naturally. Stretching along the Sava River, this exceptional urban district combines contemporary architecture, generous green spaces, residences, retail and hospitality, creating a new environment shaped around the quality of everyday life. Its connection to the river is further enhanced by BW Marina.

At the heart of one of Southeast Europe’s most dynamic capitals, Belgrade Waterfront brings a new dimension to contemporary urban living, where nature, culture and city life exist in balance. More than an address, it represents a refined way of life and a new expression of modern Belgrade.

As parks, cultural hubs and new urban landmarks emerge alongside thoughtfully planned infrastructure, the district is taking shape as a place of continuity, order and spatial harmony.
